

FORVOW

Practical Outdoor & Mobility Solutions for Senior & Large Breed Dogs

Every Adventure Still Matters

Delivering Practical Gear for Unspoken Needs

Specific Expertise

Focused exclusively on high UV-exposure, thermal burns, and mobility challenges in large and senior breeds.

Functional Design

Collaborated with rehab specialists to ensure anatomical precision, reliability, and maximum canine comfort.

Agile Supply Chain

Connecting market insights with rapid prototyping and rigid quality control for fast turnaround.

B2B Growth Support

Premium, high-margin functional gear designed for pet retailers, distributors, and rehabilitation clinics.

Large Breed Sun Shield & Detachable Cape

 **Easy-On Cape Design** Effortless dressing system for dogs with stiff joints; avoids limb-bending and minimizes dressing stress.

 **Targeted Large-Breed Protection** Shields sensitive areas (ears, back, and nose) from sunscalding while ensuring full range of movement.

 **Belly Radiation Shield** Underbody wrap reflects ground heat (bitumen/sand) and protects sensitive chest and abdominal skin.

 **Integrated back handle for sun protectionn and mobility assistance.**

- **UPF 50+ Certified Fabric Available** (AS/NZS 4399 Standard Compliant)
- **Tailored sizing available for individual dog breeds to guarantee a perfect anatomical fit**
- **Prototype concept shown for market validation and buyer feedback.**

Breathable Heat-Shield Boots

 **Anatomical Dewclaw Cut-out** Unique opening eliminates friction and skin irritation—the #1 complaint with traditional dog boots.

 **TPE Heat-Insulated Sole** Superior protection against hot asphalt and gravel while preserving natural sensory feedback for the dog.

 **Secure Fit System** Wide-opening design with dual straps ensures boots stay snugly attached, even during vigorous activities.

- Various TPE material options available (hardness, flexibility, and heat-resistance levels) for client selection.
- **Concept Design:** The heat-shield boots are currently open for market validation and buyer feedback.

Senior & Rehab Mobility Support Harness

❖ **Weight-Dispersing Support** Distributes body weight evenly to reduce strain on joints and the spine during stairs or vehicle entry.

☁ **Friction-Free Fleece Padding** Ultra-breathable lining with soft edging prevents skin chafing in sensitive areas under lifting pressure.

🚶 **Dual Assist Handle System** Heavy-duty top handles and adjustable buckles provide maximum leverage for owners and rehab specialists.

- In-Stock & Customizable: Ready-to-ship stock available with custom branding options.
- Email us to request our full catalog and additional styles.

Agile Manufacturing & B2B Solutions

Flexible OEM/ODM Supply

Low MOQ Trials

Custom orders from just 150 pieces per style to test high-margin functional niches with minimal risk.

Full Customization

Complete support for brand logo placement, sizing tweaks for unique breeds, and material development.

Partner-Centric Support

One stop Service

Dedicated coordination to move from design concept to physical samples with full QC reporting.

Multi-Channel Fulfillment

Tailored inventory solutions for independent retailers, distributors, and veterinary clinics.

Let's Partner Up

"Because when dogs cannot express their needs, we pay closer attention."
